SUMMARY

I am a final-year AI and Machine Learning student (CGPA 8.94/10), and I have actually build AI systems that actually reach production — LLM pipelines, retrieval-augmented generation, full-stack services with CI/CD behind them. Twice a national hackathon finalist (AI for Bharat with AWS and Hack2skill, Srijan 2026 with Atos). Ranked top 20 of 100 interns at SmartED Innovations. I move comfortably across the stack, from training a model to getting it running in the cloud.

CORE SKILLS

Languages: Python, Java and SQL

Generative AI / LLMs: GPT-4o, GPT-4o-mini, Ollama/Llama 3.2, Qwen2.5-Coder, Prompt Engineering, RAG, ChromaDB, Agentic Workflows, LangChain, LangGraph, OpenAI API and Google Gemini API

Machine Learning & Deep Learning: XGBoost, SHAP, Feature Engineering, Hyperparameter Tuning, TensorFlow, Keras, CNN, Bi-LSTM and Transfer Learning (MobileNetV2)

Computer Vision & NLP — OpenCV, YOLO, DeepFace, MTCNN, FaceNet, Whisper, HuggingFace Transformers, NLTK, Sentiment and Intent Classification

Backend & Frontend: FastAPI, Node.js, Express.js, REST APIs, WebRTC, WebSockets, Kafka, Redis, React.js, Next.js, TypeScript and Tailwind CSS

Data, Cloud & DevOps — MySQL, PostgreSQL, MongoDB, AWS (Lambda, S3, Textract, Bedrock, DynamoDB), Microsoft Azure AI, GCP Vertex AI, Docker and GitHub Actions CI/CD

EXPERIENCE

Machine Learning Intern — SmartED Innovations (Skill India)

Sep 2025 – Jan 2026

- Finished top 20 of 100 interns in an end-to-end ML program that covered supervised, unsupervised, and deep learning methods — the company co-founder recommended me in writing afterward.
- Handled a capstone project end to end in Python and Scikit-learn, from data preprocessing and feature engineering through to training and evaluation.
- Also built a real-time facial recognition system using MTCNN, FaceNet and OpenCV, verifying identity through cosine-similarity matching.

AI Azure Intern — Microsoft Azure (AICTE – Edunet Foundation)

May 2025 – Jun 2025

- I Spent four weeks across Azure AI Studio, Azure ML and Custom Vision, finishing with a live project demo.
- Along with that, I have trained and deployed an image classification model on Azure, following responsible-AI practices throughout.

AI & Prompt Engineering Intern — VaultofCodes

Aug 2024 (1 month, remote)

- Spent the month on applied prompt-engineering tasks and Python development, sticking to object-oriented design principles.

KEY PROJECTS

Healix — AI Clinical Decision Support Platform — 91%+ Accuracy ([GitHub](#))

- I have Built a diagnostic classifier covering 15 disease categories with XGBoost, crossing 91% accuracy. Added SHAP explanations so clinicians can see why.
- Also paired a ChromaDB-backed RAG pipeline with local LLMs, Ollama running Llama 3.2 and Qwen2.5-Coder, behind a FastAPI and React app.

SamvaadAI — Multilingual Government Scheme Assistant — 12+ Indian Languages ([GitHub](#))

- An AWS-serverless assistant that matches citizens to welfare schemes through WhatsApp and Telegram, by voice or text, in 12+ Indian languages.
- Behind it: AWS Lambda microservices using Textract and Bedrock (Claude 3, Titan) to OCR documents and pull structured data, indexed into DynamoDB.

TruthLens AI — Content Authenticity Verification Platform — GPT-4o ([GitHub](#))

- It is A FastAPI and React monorepo that uses GPT-4o to verify online content authenticity in real time, backed by GitHub Actions CI/CD and Docker.
- On top of that, automated vulnerability and secret scanning (Trivy, TruffleHog) run in the CI pipeline, so manual security review is no longer needed.

EDUCATION

B.Tech In Artificial Intelligence & Machine Learning — M.S. Ramaiah University of Applied Sciences, Bengaluru 2023 – 2027

CGPA: 8.94/10 | Best Semester SGPA: 9.58

ACHIEVEMENTS & CERTIFICATIONS

- National finalist twice over — AI for Bharat (AWS × Hack2skill) and Srijan 2026 (Atos). Seven hackathons total, including FlowZint, NEXGEN (IEEE CMRIT), TECH TRIAD, Build-A-Thon, and TenzorX (Poonawalla Fincorp).
- Ranked top 20 of 100 interns at SmartED Innovations — the co-founder put that recommendation in writing.
- NPTEL-certified by IIT Kharagpur in Introduction to Machine Learning, one of 9,715 candidates in that cohort.
- Gold medalist and Season 3 champion, Ramaiah Volleyball League.

Certifications: Google Cloud (Generative AI Studio, Responsible AI) · Infosys Springboard (Deep Learning Neural Networks with R) · BCG X GenAI Job Simulation · Tata GenAI Data Analytics · Simplilearn Prompt Engineering · HP LIFE AI for Beginners
